

# Donor Pledges

- Access the GL\_DONORS table using the %ROWTYPE attribute
- Use a bind/host variable to input the donor id
- Calculate the total pledge amount (monthly pledge amount \* pledge months)
- Display the results
- Include an EXCEPTION section
- Test the result when entering an invalid donor id

Input:

:ENTER\_DONOR\_ID

1

Output:

Donor pledge for Jake Smith  
Amount pledged: \$552.00
